This grant provides funding for a permitting consultant, acquisition, and installation of a Navigational Buoy System to warn of approaching aircraft. This is follow-up activity from the South Lake Union zoning. DPD will be responsible for the overall planning and acquisition/procurement for the project, and provide oversight of the permitting consultant. Grant funding is from July 1, 2013 through December 31, 2014, and a 5% City match is required which is being met through a private contribution from Kenmore Air. 4.4	Ravenna-Eckstein ARC Donation (Department of Parks and Recreation, Cumulative Reserve Subfund - Unrestricted Subaccount (00164))	\$70,000

Item	Title/Description	Amount/FTE
	This item increases support to the Parks Infrastructure program (K72441) by \$70,000 to accept a donation from the Associated Recreation Council (ARC). This donation is related to the Memorandum between the Department of Parks and Recreation (DPR) and ARC to support the 2014 ARC plan for improvements to outdoor court resurfacing at Ravenna-Eckstein. This supports the existing Pavement Restoration Program project (K732418), and will be used to re-surface the existing asphalt parking lot currently used as a basketball court, address tree root intrusion damage, court markings, and other related work. This donation has not yet been received.	
4.5	Grant acceptance for food systems work (Office of Sustainability and Environment, General Subfund (00100))	\$50,000
	This item increases appropriation authority to the Office of Sustainability & Environment by \$50,000 for a grant from the Seattle Foundation, in partnership with the Chase Foundation. The grant will enable the City to continue expansion of the successful Fresh Bucks program that provides low-income residents additional SNAP dollars to buy fruits and vegetables at Seattle farmers markets. The work funded by this grant will complement the work already being done by OSE to run the Fresh Bucks program. The grant period is from August 1, 2013 to December 31, 2013. The grant does not require a match.	
4.6	Grant acceptance for residential energy efficiency work (Office of Sustainability and Environment, General Subfund (00100))	\$500,000
	This item increases appropriation authority to the Office of Sustainability & Environment by \$500,000 for a Community Energy Efficiency Program Grant from the State of Washington. The grant will enable the City to reduce carbon emissions from residential buildings by providing energy efficiency improvements to Seattle residents with oil-heated homes. The work funded by this grant will complement the work already being done by OSE to transition Community Power Works for Home from a pilot program to a long-term sustainable program with diverse funding sources. This acceptance of the Grant from the State of Washington will be used to fund professional services for program management, community mobilization, and reporting. The grant period is from March 17, 2014 to June 30, 2015. The grant does not require a match.	
4.7	Lake City Way Traffic Safety Project (Seattle Department of Transportation, Transportation Operating Fund (10310))	\$400,000
	This item increases appropriation authority by \$400,000 in the Mobility – Capital BCL (19003) due to a grant from the federal 2014 Corridor Safety Program. These funds will be directed to Multi-Modal Corridor Program (TC367490) to evaluate three intersections to improve turning movements, pedestrian safety, signage and channelization, add supplemental traffic signal heads, install median curbs, upgrade sidewalks and ADA ramps, and countdown pedestrian signal heads and lighting. No local match is required.	
4.8	Historic District Curb Ramps (Seattle Department of Transportation, Transportation Operating Fund (10310))	\$400,000

Item	Title/Description	Amount/FTE
	This item increases appropriation authority by \$400,000 in the Mobility – Capital BCL (19003) due to a grant from the federal 2014 Transportation Alternatives Program. These funds will be directed to the Pedestrian Master Plan Implementation project (TC367150). These funds must be obligated by August 1, 2014. Funds will be used to design curb ramps within Pioneer Square and Chinatown/International District. Acceptance of this grant will commit the department to designing and constructing improvements.	
4.9	Seventh Avenue Protected Bicycle Lane (Seattle Department of Transportation, Transportation Operating Fund (10310))	\$200,000
	This item increases appropriation authority by \$200,000 in the Major Maintenance/Replacement BCL (19001) due to a grant from the federal 2014 Transportation Alternatives Program. These funds will be directed to the Bicycle Master Plan Implementation project (TC366760). These funds must be obligated by August 1, 2014. Funds will be used to design the Seventh Avenue Protected Bicycle Lane. Acceptance of this grant will commit the department to designing and constructing improvements.	
4.10	Washington State Parks Boating Safety Grant (Seattle Police Department, General Subfund (00100))	\$22,907
	This item increases appropriation authority by \$22,907 in the Chief of Police BCL from Washington State Parks and Recreation Commission. This funding supports the cost of increased boater education and enforcement efforts by SPD's Harbor Unit. This unit conducts supplemental water patrols and vessel inspections to enforce life jacket requirements, provide mandatory boater education, and enforce regulations related to boating under the influence. The term of this grant runs from April 1, 2014 to September 30, 2014. There are no matching requirements or capital improvement projects associated with this item.	
Section 5 – Position Adds (Exempt)		
5.1	Community Engagement Coordinator (Office of the Community Police Commission)	1.00
	This item creates 1.0 full-time FTE Planning and Development Specialist II, Exempt position in the Office of the Community Police Commission (OCPC). This position will utilize funding which was already included in the 2014 Adopted Budget for a community outreach contract and no additional appropriation will be necessary. The department also anticipates that this position will not require additional appropriation in the 2015-16 Biennium due to the reallocation of existing resources. The Director of the CPC, appointed in early 2014, reviewed the 2014 Adopted Budget proposal for contracting this work and has decided that this work would be handled more effectively by an in-house full-time staff member. Community outreach is an ongoing need that requires close communication with the Director and Commission and commitment to building stable relationships throughout the reform process. The position will play a critical role in engagement of the public and community-based organizations and coordination of their input related to police reform. Additionally, the position will be responsible for all OCPC external communications and media relations.	

Item	Title/Description	Amount/FTE
5.2	Classification Manager (Personnel Department)	1.00
	This item creates 1.0 FTE full time Manager 1 position in the Personnel Department. The position will manage the classification function and staff who perform classification related work. From 2010 to 2013, the number of classification reviews has increased from 362 to 511, and, during that time, two positions in this unit were abrogated. The addition of the Manager 1 is necessary to ensure timely completion of classification determinations matching position responsibilities with the proper title so that City employees are justly compensated. Item 1.17 provides the appropriation for this position.	
5.3	Immigrant Outreach (Seattle Police Department)	1.00
	This item creates 1.0 full-time FTE Strategic Advisor II position in the Police Department. This position comes at the request of the Mayor's Office and serves as an advisor to the Police Chief's and Senior Command Staff on issues and policies impacting immigrants and refugees. This position is also responsible for building and maintaining the city's ongoing relationship with its community. Participates in policy development, policy issues and long range plans; involved in planning, implementing and managing program components; monitors and evaluates performance and progress of programs/ projects. This position is involved in defining specific measurable outcomes for City investments for immigrants and refugees regarding employment, economic development, public health, student achievement, citizenship, public safety, criminal justice, civic engagement and protection of civil rights. This position assists the Police Chief, Senior Command Staff, and the city's decision makers in policy and strategy development within the community.	
Section 6 – Position Adds (Non-Exempt)		
6.1	Add 1.0 FTE Administrative Staff Assistant (Education-Support Services Levy)	1.00
	This item creates a 1.0 FTE Administrative Staff Assistant for the Families and Education Levy. This position will provide administrative support for all aspects of the Early Learning unit. The Early Education unit monitors the preschool Levy investments, oversees the Request for Investment processes, and manages the contracting for the Step Ahead preschool program and Parent-Child Home Program. It also manages the Early Learning Academy HighScope training for preschool teachers.	
6.2	Request Staffing Resources for the Asset Preservation Program (Department of Finance & Administrative Services)	2.00

Item	Title/Description	Amount/FTE
	This item creates 2.0 FTE StratAdvsr2, Exempt position in the Department of Finance and Administrative Services (FAS). These two new positions will provide staffing resources to meet the increased investment in the asset preservation program to maintain FAS facilities in operational condition on a sustainable basis. A recent facility condition assessment was completed on twenty-five buildings which represent about 65% of FAS managed facilities. This assessment identified over \$20 million dollars in deficiencies in these facilities that need to be addressed as soon as possible. Numerous other building systems were also identified as failing and soon will be in need of major repair or replacement, such as the HVAC system chillers and cooling towers in the SMT. These projects require staffing resources to plan and execute and cannot be fully addressed with current staffing levels. Positions will be permanent and funded by the Asset Preservation Fund (00168).	
Section 7 – Position Reclassifications		
7.1	Increase position .5 FTE to 1.0 FTE (Office of Sustainability and Environment)	.50
	This action increases the FTE for position #10004059 from .5 FTE to 1.0 FTE. The position was originally created by DPD for a different purpose than it is now, serving as the Energy Benchmarking & Reporting Program Manager. The position was reclassified in 2013 to Strategic Advisor 2 Gen Govt, with the expectation that it is a full-time position.	
Section 8 – Appropriation Transfers Within the Same Fund		
8.1	Technical Adjustment - transfer funding for Project Management Quality Improvement project between BCLs (Seattle City Light, City Light Fund (41000)/Seattle City Light, City Light Fund (41000))	\$451,531
	This item transfers appropriation authority in the amount of \$451,531 from the Financial Services BCL (SCL 500) to the Customer Services BCL (SCL 320). This transfer is needed as responsibilities for implementation of City Light's Strategic Initiative for Project Management Quality Improvement have been transferred to the Customer Service and Energy Delivery Officer. This initiative enables City Light to build a consistent enterprise project management capability to ensure proper management development, oversight, management, and accountability of capital projects.	
Section 9 – Complex Capital Appropriation and Allocation Adjustments – Seattle Department of Transportation		
9.1	Net zero transfer of project appropriations within the Major Maintenance/Replacement BCL / (Seattle Department of Transportation, Transportation Operating Fund (10310))	\$0
	This item transfers appropriation authority in the amount of \$3,200,000 from Bridge Seismic Retrofit Phase II (TC365810) project to the Bridge Rehabilitation and Replacement Program (TC366850); both projects are within the Major Maintenance/Replacement BCL (19001). The Bridge Seismic Retrofit Phase II program is winding down and has achieved cost savings. This item transfers \$1,600,000 of the savings to the Bridge Rehabilitation and Replacement program to fund complete design of the Fairview Bridge. Without additional funding, grant funds of up to \$10 million are at risk.	
9.2	Net zero transfer of project allocations / \$600,000 appropriation transfer between Mobility Capital BCL (19003) and Major Maintenance/Replacement BCL (19001) / (Seattle Department of Transportation, Transportation Operating Fund (10310))	\$0

Item	Title/Description	Amount/FTE
	This item transfers appropriation authority in the amount of \$600,000 from the Mobility Capital BCL (19003) to the Major Maintenance/Replacement BCL (19001). The Linden Avenue North Complete Streets project (TC366930) came in under budget. This item transfers \$600,000 of the savings to the Bridge Painting Program (TC324900) to fund Fremont Bridge painting, which is expected reach substantial completion at the end of this year with higher than expected costs and \$600,000 of the savings to the West Duwamish Trail (TC367130) project to fund the addition of paving the roadway (South Portland Street). This is necessary to make the storm water drainage system work properly.	
9.3	Net zero transfer of appropriations and project allocations Mobility – Capital BCL (19003) / (Seattle Department of Transportation; Transportation Operating Fund (10310))	\$0
	This item transfers \$622,000 from the Transit Corridor Improvements project (TC366860) to the 3rd Avenue Corridor Improvement project (TC367370); both projects are within the Mobility – Capital BCL (19003). These Levy Lid Lift funds will be used as local matching funds for an FTA grant and will complete construction work scheduled in 2014. Additional match is needed because some local funds were used on grant ineligible costs.	
9.4	Net zero transfer of appropriations and project allocations between Mobility Capital BCL (19003) to the Major Maintenance/Replacement BCL (19001) / (Seattle Department of Transportation; Transportation Operating Fund (10310))	\$0
	This item transfers appropriation authority in the amount of \$1,000,000 from the Mobility – Capital BCL (19003) to the Major Maintenance/Replacement BCL (19001). The 2014 budget added \$1,000,000 of REET to the Pedestrian Master Plan Implementation project (TC367150); \$500,000 for sidewalk safety repair (BIP SDOT-537) and \$500,00 for curb ramps. This item transfers \$500,000 of the funds to Sidewalk Safety Repair (TC365120), \$300,000 to Non-Arterial Asphalt Street Resurfacing (TC323920) and \$200,000 to Arterial Major Maintenance (TC365940). These transfers will align the appropriation budget with the owning division (Street Maintenance) that is responsible for the deliverables.	
9.5	Net zero transfer of appropriations and project allocations between Major Projects and the Mobility Capital BCL (19003) / (Seattle Department of Transportation; Transportation Operating Fund (10310))	\$0
	This item transfers appropriation authority in the amount of \$225,000 from the Major Projects BCL (19002) to the Mobility - Operations (17003) BCL. Appropriation authority was erroneously placed in a CIP project instead of an Operating project in the 2013 and 2014 budgets. This appropriation authority will fund costs associated with the downtown e-Park project, which includes downtown signage indicating parking garage capacities. The \$225,000 will primarily fund operations staff and routine and preventative maintenance.	
9.6	Net zero transfer of appropriations and project allocations between Mobility Capital BCL (19003) to the Major Maintenance/Replacement BCL (19001) (Seattle Department of Transportation; Transportation Operating Fund (10310))	\$0

Item	Title/Description	Amount/FTE
	This item transfers appropriation authority in the amount of \$675,000 from the Mobility Operations BCL (17003) to the Mobility Capital BCL (19003). The 2014 Adopted Budget provided \$675,000 of Levy Lid Lift funds to update the Central Business District signals so that they can respond to real-time traffic pattern and volume changes. However, this funding relates to configuring and integrating new equipment into the existing network. These costs are required to get the new Access Seattle equipment to operable status and are more appropriately part of the capital project (TC367430) rather than operations.	
Section 10 – Complex Capital Appropriation and Allocation Adjustments – Seattle City Light		
10.1	Net zero transfer of appropriations and project allocations between the Customer Focused CIP BCL (SCL370) and the Transmission and Distribution CIP BCL (SCL360) / (Seattle City Light, City Light Fund (41000))	\$0
	This item reallocates \$1 million of project allocations from the Customer Focused CIP BCL (SCL370) to the Transmission and Distribution CIP BCL (SCL360). The funding will be used to provide overhead capacity additions needed to support customer requests. Funding is available because fewer transportation relocations have been requested than we planned.	
10.2	Net zero transfer of appropriations and project allocations within the Transmission and Distribution CIP BCL (SCL360) / (Seattle City Light, City Light Fund (41000))	\$0
	This item reallocates \$3.6 million of project allocations within the Transmission and Distribution CIP BCL (SCL360). This item also reallocates \$900,000 of project allocations from the Customer Focused CIP BCL (SCL370) to the Transmission and Distribution CIP BCL (SCL360). This funding will be used to provide underground capacity additions needed to support customer requests. Funding is available because SCL has reduced costs by using more stays and replacing fewer poles, several network requests have been delayed until 2015, and the scope of Substation Automation has changed in 2014.

2014 - 2019 Adopted Capital Improvement Program

City of Seattle
Edward B. Murray
Mayor

July 8, 2014

Honorable Tim Burgess
President
Seattle City Council
City Hall, 2nd Floor

Dear Council President Burgess,

I am transmitting the attached proposed Council Bill, which amends the 2014 Adopted Budget and the 2014-2019 Capital Improvement Program. The legislation includes adjustments to several department budgets based on requests that were submitted to the City Budget Office during the second quarter of this year.

Some highlight items in the request include, approximately \$626,000 for a new class of recruits for the Seattle Fire Department to help fill the Department's current vacant positions, \$600,000 for the Out of School Time Community Learning Center program within the Department of Parks and Recreation paid by an agreement with the Seattle Public School District, \$110,000 to help fund mobility freight master plan work within the Seattle Department of Transportation, over \$78,000 to implement a Cost of Living Adjustment (COLA) negotiated with the City's coalition of unions, and \$68,000 for an added position in the Office of Immigrant and Refugee Affairs to assist the Seattle Police Department with outreach to immigrant communities.

In addition this Bill authorizes grant funding from various grants. These grants provide the necessary resources to carry out a number of important City tasks including better preparation and capabilities in responding to emergency events. The acceptance of these grants was transmitted to Council in a separate Bill accompanying this Bill

The attached legislation provides an opportunity for the City Council to review and approve several adjustments to the 2014 Adopted Budget in a single ordinance. Thank you for your consideration of this legislation. Should you have any questions, please contact Tyler Running Deer at 233-7065.

Sincerely,

Edward B. Murray
Mayor of Seattle

cc: Honorable Members of the Seattle City Council
